**PORT AUTHORITY**®

C960 Port Authority® Cotton Bandana

PRODUCT DESCRIPTION

- 100% cotton
- Measures: 21.5" x 21.5"
- Multifunctional, versatile face covering
- Can also be worn as a headband and neckerchief
- Fold bandana diagonally and tie around head to cover face as desired
- Finished seams prevent fraying
- Machine washable
- Colors: Black, Royal, Red, Navy

DECORATION TIPS

- Because bandanas are worn over the mouth and nose, it is best not to cover the bandana with large filled-in areas. This can hamper breathability and be uncomfortable against the skin. See examples below.
- Measurements account for clamping systems, hooping area and heat press platen sizes.
- A larger decoration area may be achieved with the appropriate equipment.

RECOMMENDED DECORATION TECHNIQUES

- Screen Printing: Use a water-based or phthalate-free ink. For all-over prints, split the design diagonally and mirror the image so the logos are readable on both sides of the bandana when it's folded in half.
- Heat Transfer
- Pad Printing
- DTG: Depending on equipment used, please consult with equipment supplier

Logos that block the front of the bandana could hamper breathability.
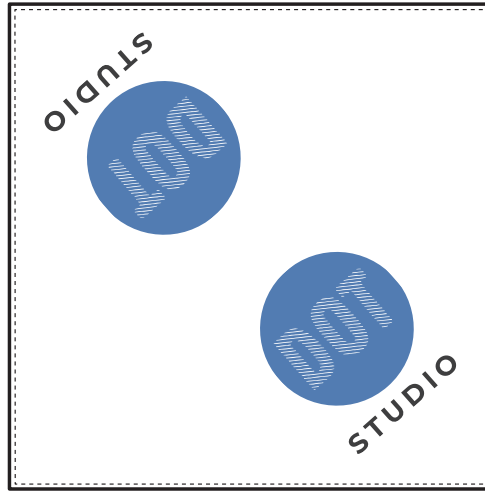

STUDIO
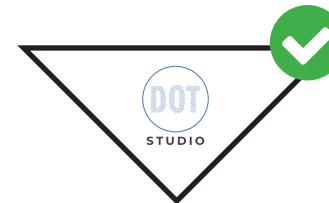

Remove the background color for breathability.

DOT
STUDIO
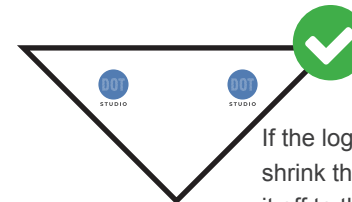

If the logo must stay intact, shrink the size and place it off to the side to ensure breathability.

PLACEMENT TIPS AND TRICKS

- Because bandanas are folded in half in order to wear them over the nose and mouth, a step and repeat of a wordmark or logo is best split in half. That way, when it's folded, both sides are readable. This is also important for any single image placement and border runs.

Dimensions Flat: 21.5" x 21.5"

Decoration Area Flat: 20.5" x 20.5"
(Dimensions leave room for a border away from the seams.
All-over printing is possible with the correct equipment.)

Decoration Area Folded Half: 29"W (top) x 20.5"L (sides) x 14.5"H (top to bottom center)
(Dimensions leave room for a border away from the seams.
All-over printing is possible with the correct equipment.)
