DECORATION TIPS

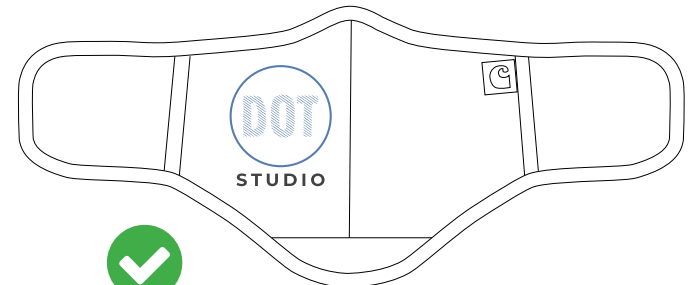

- Measurements account for clamping systems, hooping area and heat press platen sizes.
- A larger decoration area may be achieved with the appropriate equipment.

RECOMMENDED DECORATION TECHNIQUES

- Pad Printing
- Heat Transfer: Use a press with smaller platens, a print perfect pad or heat press to raise the application area and transfer materials with some stretch
- Screen Printing: Use a water-based or phthalate-free ink, face mask clamp or pocket pallet with a light tack adhesive
- Embroidery: Reseal the back of the embroidery with a laminate to reseal holes.

Logos that block the front of the mask could hamper breathability and printing over a seam can be challenging.

Remove the background color for breathability and move to the side for easier printing.

Due to the center seam shrink the logo size and place it off to the side for ease of printing.
