- This product is not intended for use by health care professionals and is not intended as a replacement for personal protective equipment.
- This product makes no claims of antimicrobial protection, antiviral protection, particulate filtration, or infection prevention or reduction.
- This product has not been FDA cleared or approved.

DECORATION TIPS

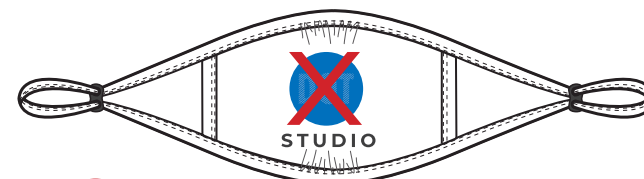

- Measurements account for clamping systems, hooping area and heat press platen sizes.
- A larger decoration area may be achieved with the appropriate equipment.

RECOMMENDED DECORATION TECHNIQUES

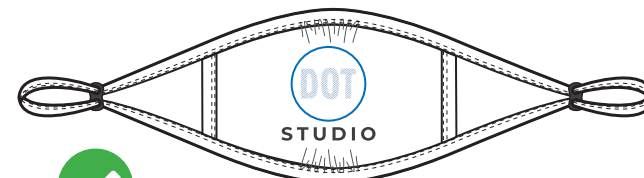

- Pad Printing
- Heat Transfer: Use a press with smaller platens, a print perfect pad or heat press to raise the application area and transfer materials with some stretch
- Screen Printing: Use a water-based or phthalate-free ink, face mask clamp or pocket pallet with a light tack adhesive

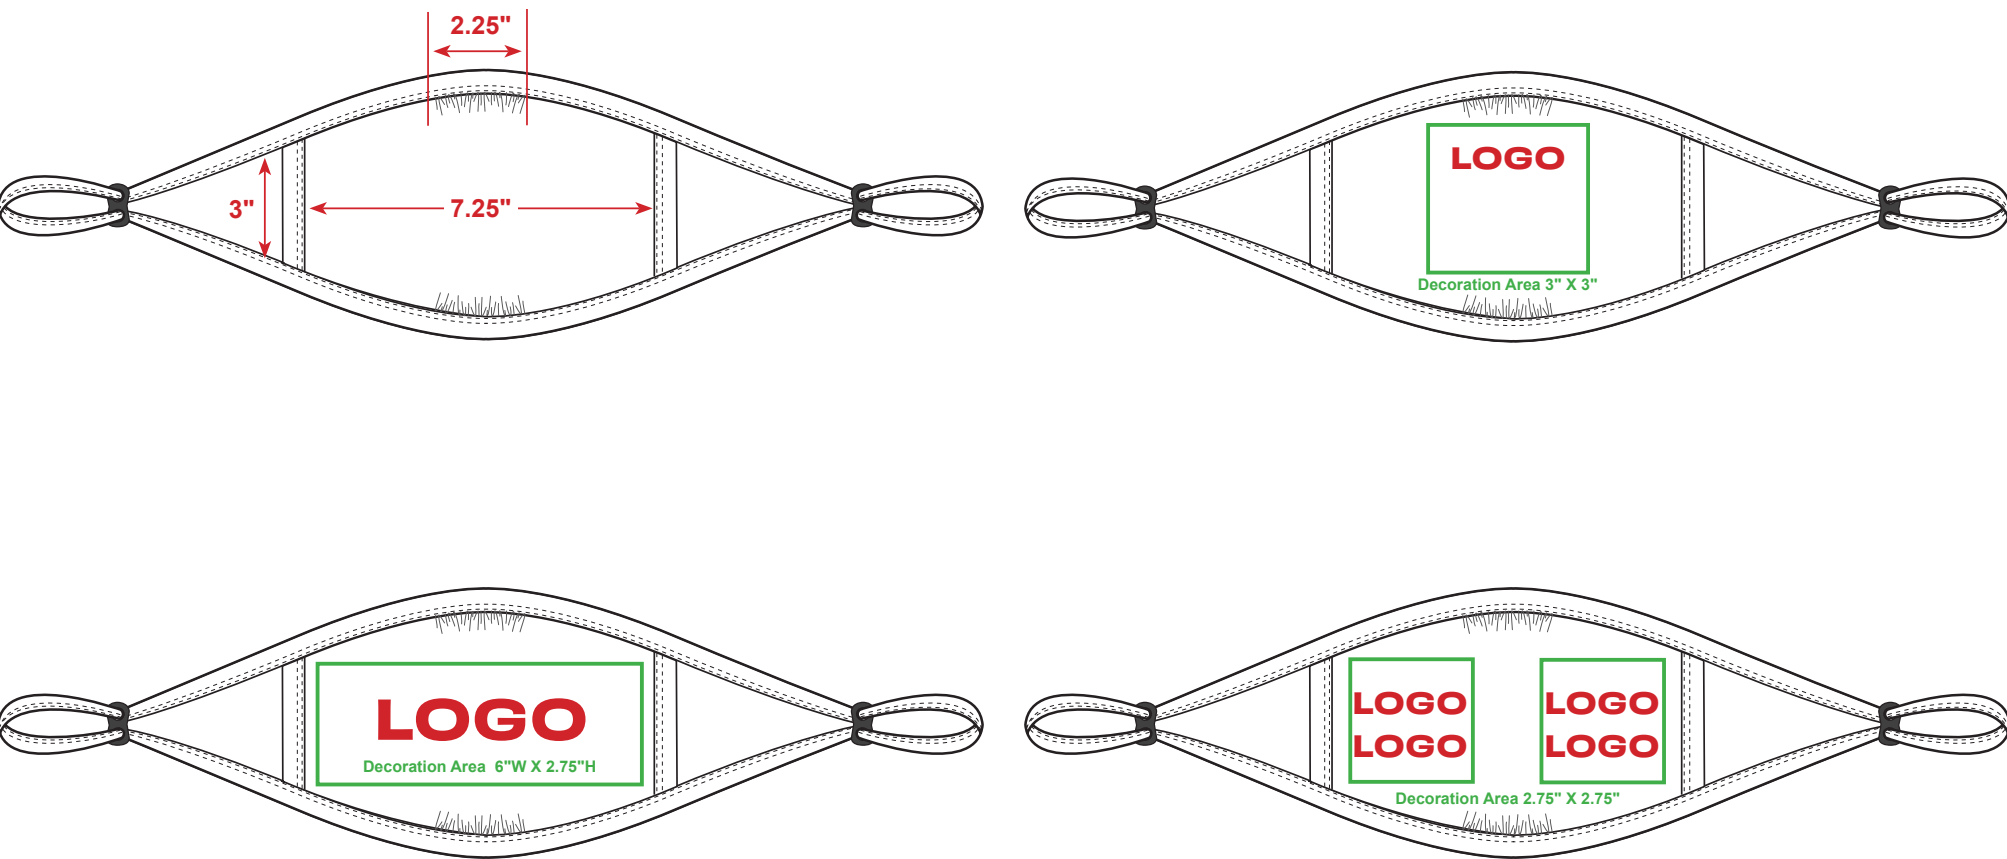

If the logo must stay intact, shrink its size and place it off to the side to endure maximum breathability.

Logos that block the front of the mask could hamper breathability.

Remove the background color for breathability.
